Rack Cabinet with Flat Pack

Pre-assembled 19"

Minimal encumbrance maximum practicality

The Intellinet cabinets are the result of an innovative project that meets the needs of structured cabling in data and telecommunications networks.

Practicality and economy: requires 50% less space allowing both to reduce logistics costs and to reduce shipping costs. Packaging designed for long distance shipment.

Quick assembly: it is supplied completely disassembled; **assembly takes less than 10 minutes and no requires special tools**.

Robustness: a frame with special profiles of 2 mm thick pre-welded steel **guarantees a load capacity of up to 750 kg** (server cabinets). Top and bottom have 4 mm thick corner joints for maximum stability.

Versatility: pair of 19 "front and rear adjustable rails equipped with scales for fast and precise installations; removable side panels; reversible door with lock and 180° opening angle. Ventilated top for fan mounting.

Accessories: wide range of accessories to meet the needs of designers and installers.

MADE IN ITALY:
CE certified product according to EN 62208 and manufactured according to the following international standards:
IEC 297-1 / 2/3;
EN 61439-1; EN 60529;
EN 12150-1 and in compliance with the ISO 9001: 2008 standard
