BRINGING NETWORKS TO LIFE

High-Gain Omni-Directional Antenna

2.4 GHz, 8 dBi

Ideal for extending the range of your wireless network indoors or outdoors.

Model
521413

The INTELLINET NETWORK SOLUTIONS™ High-Gain Omni-Directional Antenna is used to extend the range of coverage for the wireless network. It requires an access point or wireless router with a reverse SMA connector, both of which are sold separately and are available through your INTELLINET NETWORK SOLUTIONS dealer.* Typically installed upside down from ceilings or on a rooftop, this waterproof antenna is ideal for point-to-multipoint coverage for wireless 802.11b or 802.11g devices.

Increased Range

Since the High-Gain Omni-Directional Antenna provides a high gain of 8 dBi, it allows you to extend the range of your existing wireless network; and with 360 degrees of wireless range you can extend it in all directions.**

Waterproof

The High-Gain Panel Directional Antenna is made using weatherproof and corrosion-resistant material, and can be used indoors or outdoors.

Avoid Running Cable Outdoors

Using the High-Gain Panel Directional Antenna will allow you to avoid the cost and effort associated with running outdoor cable between buildings. Now you don't need to dig up concrete and disrupt your campus or building-to-building environment in order to expand your wireless network.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all INTELLINET NETWORK SOLUTIONS products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

* Other items recommended are an Antenna Surge Arrestor and an Antenna Cable Adapter. Contact your INTELLINET NETWORK SOLUTIONS provider for ordering information.

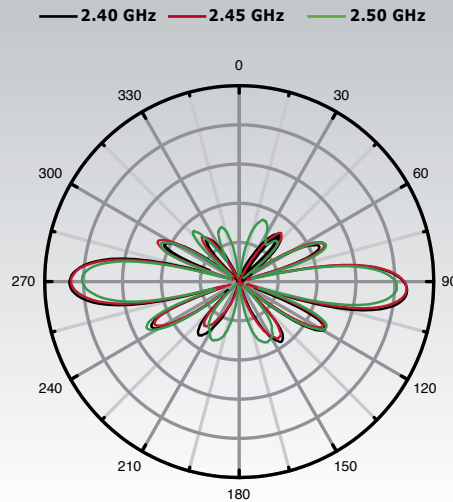

** To obtain optimal results in extending the range of your wireless network, it is recommended that a professional installer service is consulted for a site survey and proper installation.

V-Plane Co-Polarization Patterns

LIFETIME
WARRANTY

Model
521413

Features

- 8 dBi gain antenna
- Ideal for increasing wireless network range and speed
- Weatherproof and corrosion resistant
- N-type female connector
- 360° horizontal and 15° vertical beam width
- For pole and wall mounting
- Lifetime Warranty

Specifications

ELECTRICAL SPECIFICATIONS

- Frequency range: 2.4 – 2.5 GHz
- Gain: 8 dBi
- VSWR: 1.92:1 maximum
- Polarization: linear, vertical
- HPBW/horizontal: 360°
- HPBW/vertical: 15°
- Power handling: 10 W
- Impedance: 50 Ohms
- Connector: N-type female

ENVIRONMENTAL & MECHANICAL CHARACTERISTICS

- Operating temperature: -30 – 80°C (-22 – 176°F)
- Storage temperature: -40 – 85°C (-40 – 185°F)
- Humidity: 95% RH
- Radome color: white
- Radome material: PC + UV resistance
- Weight: 200 g (7.06 oz.)
- Dimensions: 21 (W) x 625 (H) mm (0.8 x 24.6 in.)

PACKAGE CONTENTS

- Omni-Directional Antenna
- Mounting hardware
