Power Delivery Charging Station with Qi™ Wireless Charging Pad - 55 W

Model# 102230

Power Delivery (PD) Charging Station with Qi™ Wireless Charging Pad - 55 W – Charge more devices faster

Enjoy full charging power with the Manhattan PD Charging Station with Qi™ Wireless Charging Pad - 55 W. The charging station's USB-C port uses PD technology to find out the power needs of your smartphone, tablet or other compatible device and supply it at the fastest, safest rate. The Qualcomm® Quick Charge™ 3.0 USB-A port also delivers up to 18 W at the right speed for your device. The next three USB-A ports provide power up to 5 V / 2.4 A.

This Charging Station also includes a detachable Qi-certified 10 W wireless charging pad so you can fast-charge any wireless-charging-supported device. Quickly getting a full charge means setting your device on the charger – no more searching for a free wall charger and cable. The PD Charging Station with Wireless Charging Pad is a perfect power companion with its stylish, compact and ultra-modern design. It also smartly protects itself and your devices from short-circuits, over-voltage, over-current and overheating.
