

Professional Video Splitter

Model
169349

A flexible solution for many applications, it directs a single video signal to multiple monitors.

Ideal for trade shows, classrooms, video conferencing and presentations, the MANHATTAN® Professional Video Splitter with two ports combines advanced boosting technology with high bandwidth and resolution for superior video quality. Gold-plated contacts and a fully shielded metal case help maintain clear, sharp images even over extended distances.

Easy to install

Simply connect cables and the included power supply to easily display a 350 MHz VGA signal on multiple monitors. No software or hardware configuration required.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

Model
169349

Features

- Duplicate 1 VGA input into multiple VGA outputs
- Effective transmission distance: 65 m (210 ft.)*
- Automatic power save when VGA input is lost
- Applicable to VGA, SVGA and multi-sync monitors
- Cascaded operation for increased VGA outputs
- Crisp, clear VGA images

* With UL-2919-rated VGA cables

Specifications

- Number of VGA outputs: 2
- Signal bandwidth: 350 MHz
- Signal type: VGA, SVGA, multi-sync
- LEDs: Power (green) x 1; Active (amber) x 1
- Cable length: 65 m (210 ft.) max.
- Connector input: HD15 male x 1; output: HD15 female x 2
- Power adapter: 9 V AC, 200 mA
- Power consumption: 10 mA, power-save mode
- Enclosure: metal
- Weight: 400 g
- Dimensions: 20 x 85 x 180 mm
