Indoor WiFi Pan/Tilt Camera

Keep an eye on what matters the most to you 24/7, be it your family, pet or property.

This camera comes with wide rotational possibilities with 350° horizontal and 110° vertical ranges, enabling seamless monitoring without blind spots. App-controllable panning and tilting offers you a holistic view of the areas you care the most. See live or play back video on your smartphone anywhere, anytime.

Easy Setup

Set up your camera in minutes with the Tuya Smart Life app.

1
Download the
Smart Life app

2
Turn on your camera
and plug it in

3
Follow the guide
on the app

Pan & Tilt

Remotely move the camera up & down, left & right from your smartphone app, even if you're far away from home.

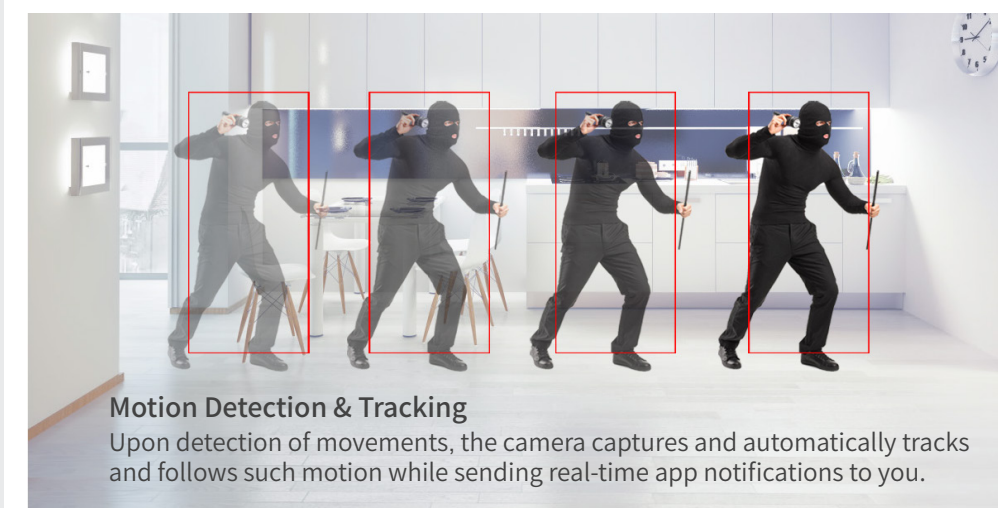

Simultaneous Multi-Cam Viewing

If you have multiple cameras installed in different rooms or at different locations, you can check them all out at the same time.

Real-Time Alerts with Snapshots

Get real-time notifications with snapshots on your phone when your camera detects motion.

Motion Detection & Tracking

Upon detection of movements, the camera captures and automatically tracks and follows such motion while sending real-time app notifications to you.
