Installs Under Your Furniture to Turn It into a Wireless Charging Pad, 10 W / 7.5 W / 5 W Output, Black

Part No.: [102346](#)

EAN-13: 0766623102346 | UPC: 766623102346

Hidden Wireless Charger - turn your furniture into a wireless charging pad

As convenient as wireless charging is, the chargers themselves are unattractive, take up space on your desk and do nothing for you when they're not in active use. The Manhattan Under-Desk Fast Wireless Charger - 10 W is the better way: It hides a wireless charger under your table to make it functionally invisible, clean things up and minimize clutter.

Works with many non-metal surfaces

This kit lets you add wireless charging to your existing non-metal desk and is perfect on surfaces such as wood, plastic, glass, marble, ceramic, granite and more. It also makes a great addition to other furniture like coffee tables, kitchen countertops, benches, shelves and other pieces. Want a clutter-free wireless charging nightstand? Simply put your phone above the charger before you go to sleep and wake up to a fully charged phone. Own a business? Offer modern charging solutions on your office desks or restaurant tables.

Maximum convenience with all Qi® compatible devices

This Manhattan wireless charger supports Qi-compatible fast-charging on all phones that support it. With 10 W for Samsung® phones, 7.5 W for iPhones® and 5 W for Android phones like the Google Pixel or models from Asus, LG, Huawei and more, you'll be ready to go in no time. You can also charge other devices such as AirPods®, cases and smartwatches.

Safe, long-range wireless charging

The surface you charge through can be up to 30 mm (1.2 in.) thick, which is far thicker than traditional wireless chargers. Accessories on your phone such as cases or PopSockets[®] are no barrier and do not have to be taken off. If you place a metallic item like a key on the charging area, the Foreign Object Detection mechanism will automatically shut off the charger. Above that, overload, overcurrent and overheating protection guarantee maximum safety.

Simple, toolless installation

Included in the package contents is a 3M adhesive tape that lets you easily attach the charger underneath your preferred surface. Connect the included DC power supply, and you're all set. There is no need to drill holes into your table or mess with any other DIY hassle. The charger has a generous misalignment tolerance of 20 mm (0.8 in.), so you do not have to position your device perfectly for it to charge. If you want to attach your charger more firmly, you can also mount it with the four included screws. To make the charging even more efficient, place the included removable coil sticker on the surface above the wireless charger.

Features:

- Installs hidden under your desk or other non-metallic surface and turns it into a wireless charging pad
- Clean, clutter-free charging for coffee tables, office desks, bedside tables, kitchen counter tops, shelves, benches and more
- Attaches with included adhesive tape or mounting screws
- Wirelessly fast-charges compatible devices - phones, cases, earbuds, smartwatches and more - with power up to 10 W
- Great for hospitality businesses like restaurants, hotels and more
- Charging distance 15 - 30 mm (0.6 - 1.2 in.); misalignment tolerance 20 mm (0.8 in.)
- 10 W fast-charging for Samsung[®] phones, 7.5 W fast-charging for Apple[®] iPhones, 5 W charging for other Qi-compatible Android phones
- Overload, overcurrent and overheating protection
- Foreign Object Detection (FOD) to prevent interference or device damage from foreign metal objects
- Includes optional removable coil sticker to mark the charging area on your surface and make it even more efficient
- LED indicators for easy status monitoring
- Effective wireless charging through phone cases and PopSockets[®]
- Compatible with Apple MagSafe[®] accessories
- Three-year warranty

Specifications:

Standards and Certifications

- CE
- RoHS
- FCC

General

- DC Input: 24.0 V / 1.0 A
- Charging distance: 15 - 30 mm (0.6 - 1.2 in.)
- Misalignment tolerance: 20 mm (0.8 in.)
- Charging efficiency: ? 75%
- Wattage settings (maximum):
 - 5.0 W / 7.5 W / 10.0 W
- Stand-by power consumption: <0.1 W

Protection Characteristics

- Short-circuit (SCP) with auto-recovery mode
- Overvoltage (OVP) with auto-recovery mode
- Overcurrent (OCP) — current limit: 150% (max)
- Over-temperature (OTP)
- Foreign Object Detection (FOD)

Compatibility

- 10 W fast-charge mode:
 - Samsung Galaxy S7 / S7 Edge / S8 / S8+ / S9 / S9+ / S10 or above
 - Huawei Mate20 Pro, Mate20 RS, P20 Pro, P30 Pro or above
 - Samsung Note 8 / 9 / 10 or above
- 7.5 W fast-charge mode:
 - Apple iPhone 8 / 8 Plus / X / XR / XS / XS Max / 11 / 11 Pro / 11 Pro Max / 12 mini / 12 / 12 Pro / 12 Pro Max or above
- 5 W mode:
 - All other Qi®-enabled devices including Google Pixel and Nexus, phones from Asus, LG, Sony and more

Physical

- Dimensions (L x W x H): 106 x 106 x 20 mm (7.48 x 7.48 x 0.79 in.)
- Weight: 190 g (6.7 oz.)
- Housing: ABS plastic

Operating Environment

- Operation temperature: 0 - 40°C (32 - 104°F)
- Storage temperature: -20 - 65°C (-4 - 149°F)
- Humidity (noncondensing): 10 - 90%

Package Contents

- Under-Desk Fast Wireless Charger - 10 W
- 3M adhesive tape

- Four mounting screws
- Coil sticker
- DC power adapter, 24 V / 1 A, 1.2 m (4 ft.) cable
