Activity Tracker „FontaFit 165CH“

With the activity tracker FontaFit 165CH you always have your activities and more in view. In addition to standard functions such as **date and time**, **step counter**, **distance measurement** and **calories burned**, the tracker also records **heart rate**, **blood pressure** and **body temperature**. **Sleep activities** such as sleep duration and sleep cycles are recorded.

Various modes are available for evaluating **sporting activities**. The tracker has an **alarm and wake-up function** and reminds the user to exercise regularly if desired. Information about incoming **calls**, received **messages** and other **push notifications** are shown on the FontaFit's **colorful display**. The tracker can be used to operate the **camera** of the connected smartphone.

If you ever misplace your smartphone, the tracker will help you **find** it. The durable TPU wristband makes the FontaFit sweat- and **splash-proof** and ideal for sports activities. A **colored interchangeable wristband** is included.

The free, user-friendly **FontaFit Plus app** for Android and iOS is available for download for the FontaFit 165CH tracker, which evaluates the recorded data and displays it clearly on the smartphone.
