MULTI-CARD READER/WRITER USER MANUAL

MODELS 100939 & 100946

Thank you for purchasing the MANHATTAN® Multi-Card Reader/Writer, Model 100939 (black) or Model 100946 (blue).

Convert any unused PC bay into a digital content management center that lets you access picture files from memory cards without directly connecting a camera or other media device to the computer. Follow the simple instructions in this user manual and enjoy the benefits of these convenient features:

• Easily access media and manage content almost anywhere
• Includes USB mass-storage capabilities
• Compatible with CompactFlash, Microdrive, Memory Stick, MagicGate, SecureDigital and Multimedia
• Supports automatic card detection and data transfer speeds up to 480 Mbps
• Eliminates the need for a direct connection of a media device to save battery power
• Windows and Mac compatible — hot swappable, Plug and Play
• Lifetime Warranty

INSTALLATION

1. Using the included USB cable, connect the Multi-Card Reader/Writer to a USB port on your computer. Double-click on "My Computer" to confirm that a removable disk icon appears.
2. Check that the green Power LED lights to confirm a proper connection.
3. Insert your storage card in the appropriate reader slot to use the card reader function.
4. Check that the Power LED changes to red to indicate the device is ready for operation.
5. Double-click on the corresponding icon to read or write desired files to or from your computer or storage card.
6. Check that the Power LED flashes to indicate the operation is in progress.

Memory Card Formatting:

XD users may need to format the memory card prior to use, indicated by a "write protection" or "read/write error" message. If this is the case, follow the steps below to use the Flash Ranger tool for formatting the memory card.

1. Go to "Start" → "Programs" → "Multimedia Card Reader" → "Flash Ranger."
2. Select the XD icon, then click "Low Level Format."
3. When prompted with "Low level format is completed. Please remove the card," click "OK" and remove the memory card.
4. Re-insert the memory card and continue using the Multi-Card Reader/Writer.
